**30 second borderless printing... fast, affordable and portable**

# 8 inch borderless printing made easy and affordable for minilabs, portrait and event photographers

Minilabs, portrait and event photographers have a growing need for instant output of enlargements and package prints. The problem is there was a limited choice, either an expensive multi-head roll printer (fast but expensive) or inexpensive cut sheet printers (more affordable, but slow and high print cost). But now, KG Digital brings you the perfect solution. The Shinko CHC-S1245, a fast, affordable, portable, high capacity printer that produces the highest quality prints in less than 30 seconds.

## Compare... you will be convinced.
